GUARDIAN SERIES – Compact Flat Fold Design

Stock #	Description	Packaged	Exhalation Valve
FV-FFP2R-S	FFP2 Antimicrobial Respirator	2, 20 or 50 packs	No

Reusable for up to 14 days	Fluid Resistant	Design	Attach
Yes	Highly	Flat Fold	Double Elastic Band

* Independent testing studies

** Other viral and bacterial tests were performed in independent testing but not included as data for the regulatory approval. These tests showed the antimicrobial agent to be effective against all tested viruses and gram-negative and gram-positive bacteria (including Tuberculosis). A comprehensive list is available upon request.

Antimicrobial, Reusable FFP2 RD Respirator Mask

With the next generation microbe-fighting technology, the SpectraShield™ GUARDIAN is the first ever **REUSABLE** antimicrobial protected FFP2 respirator mask. It is creatively engineered to be reused for up to 14 days*. Its patented, safe, natural and effective **Fosshield®** antimicrobial technology penetrates the microbe's cell wall, attacks its metabolism and disrupts reproduction. Approved under E.U. classification EN149:2001 + A1:2009

Features and Benefits:

- **Regulatory:** EU FFP2 and Reusability certified
- **Superior Performance**:**
 - Proven highly effective against the following viruses:
 - Influenza A (Swine Flu or H1N1)
 - Avian Flu (H5N1)
 - Rhinovirus
 - Adenovirus
 - Coronavirus
 - Begins microbe prevention immediately and **eliminates 99.99%** of the following tested bacteria after one hour of contact with the surface of the respirator:
 - Methycillin Resistant Staphylococcus Aureus (MRSA)
 - Streptococcus Pyogenese
 - Haemophilus Influenzae
 - Legionella Pneumophila
- **Protection:**
 - Shields from blood, other bodily fluids and a wide spectrum of airborne respiratory threats
 - Meets CDC and WHO guidelines for tuberculosis and other infectious disease exposure control
 - Filters out viruses, fungi, bacteria, pollen and other airborne irritants; including non-oil containing fumes, mists and dust
 - Hypoallergenic
- **Design:**
 - Reusable wear for up to 14 days
 - Unique construction naturally contours to facial features for a guaranteed proper fit
 - PVC and latex-free
 - Uses same safe and effective **Fosshield®** antimicrobial technology incorporated in Nexera's FDA 510(k) cleared surgical respirator mask

Protected by

Fosshield®

Clean. Safe. Natural.
